

UNIVENTURE 2019

ARTIFICIAL INTELLIGENCE IN THE QUANTUM WORLD

FOUNDERS OF THE STARTUP: DANIELE BAJONI, DARIO GERACE, CHIARA MACCHIAVI AND FRANCESCO TACCHINO

TEAM MEMBERS: CATERINA CORONA, BARIS YUKSEL, OFFER DISTELFELD

MENTOR: ALBERTO GIACOBONE

SUMMARY

| 3. | Business model..... | 14 |
| 4. | Action plan and financials..... | 15 |

1. Description of the business idea

1.1 Overview of Entangled Software Startup

Mission: Entangled Software's mission is to develop neural network algorithms to be made available on quantum computing cloud platforms. Our algorithms solve real-world problems and improve humanity's journey towards a better future through neural network algorithms that make the most out of QC peculiarities.

Vision: Despite the power of today's supercomputers, there are many complex computer problems that cannot be addressed by traditional systems. Entangled Software believes that quantum computing has the potential to help solve some of the most complex technical and scientific problems that organizations face. Entangled Software focuses on the fastest way to practical, real-world applications that provide customer value.
